

LYNN
UNIVERSITY

Stretch your creativity
by examining evidence and
producing theories about the
perpetrators motives.

About Lynn

Lynn University is one of the most innovative, international and individualized small universities in America. We are a young and forward-thinking organization located alongside South Florida's booming business centers and beautiful beaches, and we are focused on one thing: **preparing students for success.**

Our professors concentrate on the art of teaching—making good students great and great students remarkable.

Our award-winning, tablet-based learning initiative puts a transformational learning companion into the hands of students.

And our graduates? They've gained the intellectual flexibility and global experience to take the lead in an ever-changing world.

CSI—Boca Raton

At Lynn, the forensic science major presents a rare combination of scientific technology and methodology with the legal, psychological and social aspects of human behavior.

Through hands-on experience, you'll learn the practice of crime scene processing as well as the testing, evaluation and identification of crime scene materials in the laboratory.

You'll study with professors with many years of experience in the FBI and our faculty medical doctor who practiced clinical and surgical pathology in the U.S. and abroad. You'll learn to discern differences in accidental bodily trauma versus trauma caused with criminal intent.

This rewarding career leads to the identification and punishment of perpetrators, and a resulting restoration of harmony and balance to the lives of the victims and their families.

Find the path to success

You'll be prepared to work on the local, county, state and federal levels:

- on crime scene investigation teams
- on crime laboratory analysis teams
- in private laboratories
- in law firms
- in insurance companies
- in private investigation agencies

And ... if you choose to continue your studies, you'll be ready for graduate programs in fields such as:

- forensic science
- criminal justice
- criminology
- psychology
- law

Collect the evidence

Joseph H. Hall, coordinator of forensic science, is happy to answer any questions about this exciting and rewarding field. **Call or email him at 561-237-7200 or smiklus@lynn.edu.** (Ask him about his more than 20 years working with the FBI in Asian organized crime, and on its Evidence Response Teams.)

Or reach out to our Office of Admission at:
