### Earn cross-cultural credentials

With your master's degree in applied psychology from Lynn University, you'll be prepared for eventual licensure as a mental health counselor in the State of Florida. (The program also meets the national standards, which makes it transferrable to most U.S. states.)

Get ready to be infused into a multicultural education that will prepare you ethically and professionally to work in today's global environment.

Attend professional conferences and present your own research projects. You can even study abroad through special programs with a psychology/counseling orientation. This way you can study the cross-cultural nature of the field.

Your graduate degree will allow you to pursue a career in the applied fields of psychology such as health, education, forensics, sports and exercise.
