

# Lynn University iPad program

Quick facts  
March 2015

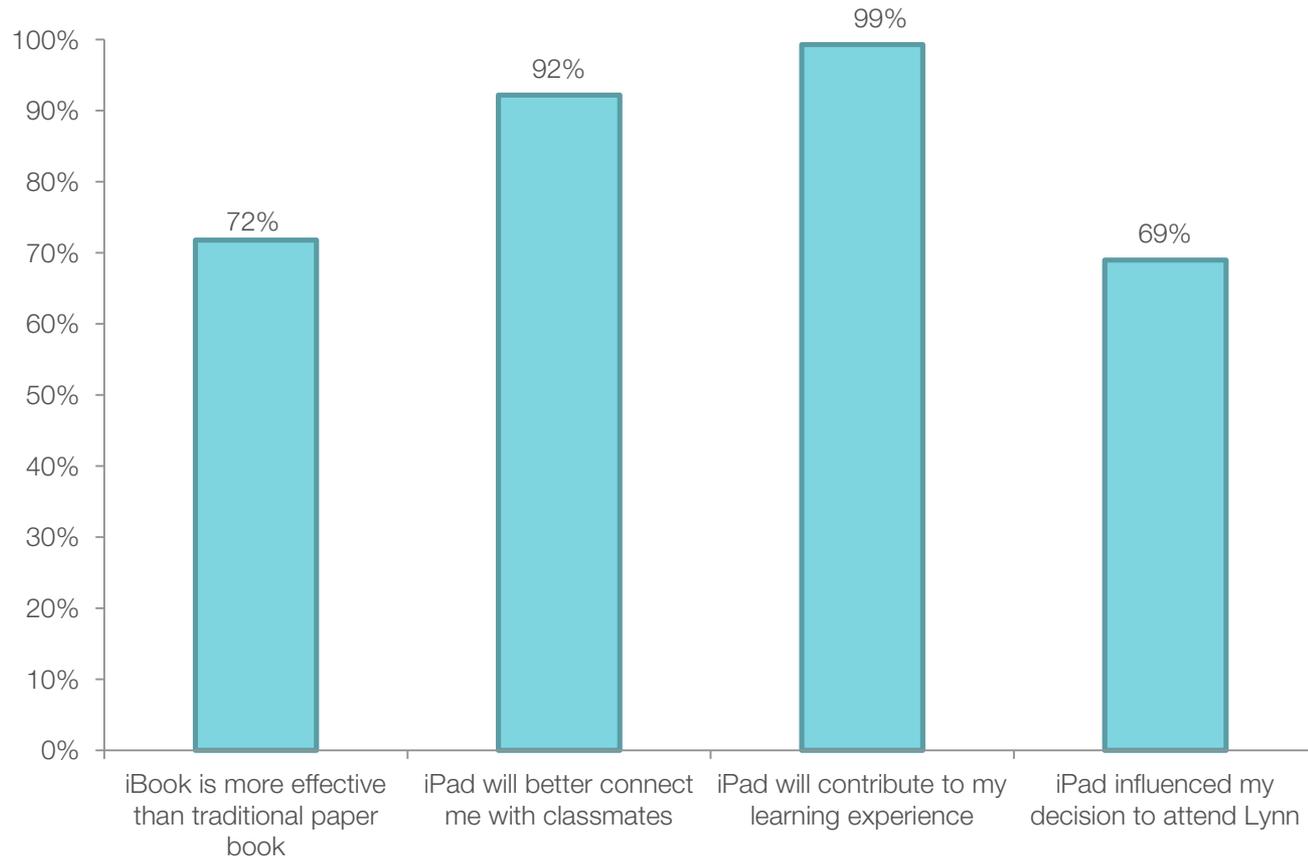

# iPad program overview

- Lynn University's award-winning, tablet-based academic initiative puts a transformational learning tool into the hands of students and empowers faculty to more creatively deliver the school's nationally praised Dialogues of Learning core curriculum.
- In January 2013, the school conducted a successful pilot during its January Term Citizenship Project. The result: Apple iPad-enriched classes showed a significantly higher level of learning than traditional classes.
- In August 2013, Lynn provided the iPad mini to 750 incoming freshmen, transfer students and some upperclassmen. The program was so successful that the university decided to more than double deployment.
- In August 2014, Lynn deployed approximately 1,800 iPad minis to all day undergraduate, new MBA and doctoral students.
- By fall 2015, 100 percent of the university's degree programs will be powered by iPads.

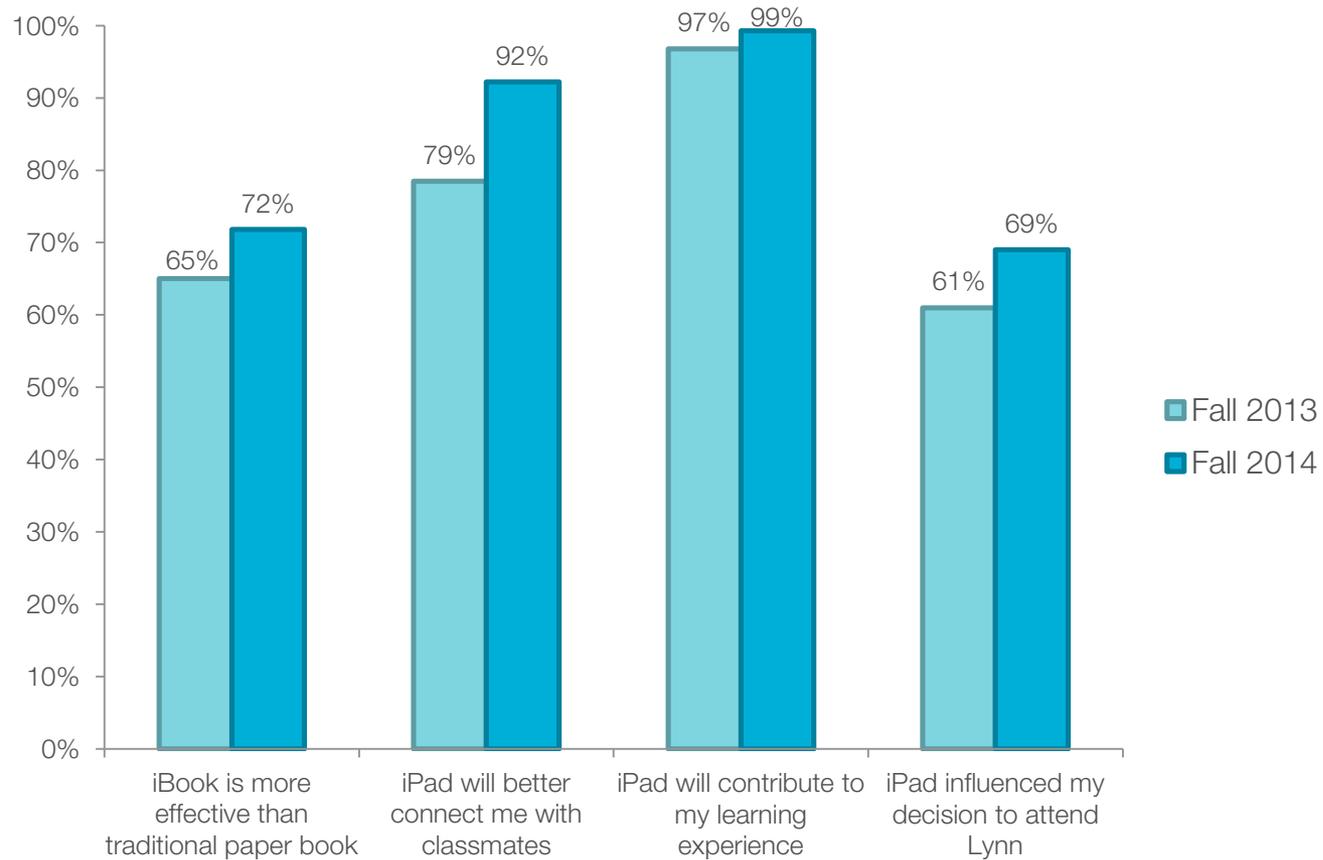

# What students are saying

## Fall 2014 student survey highlights\*

\*Lynn University survey of students who received iPads in August 2014. Total number of respondents was 593.

## Year-over-year comparison\*

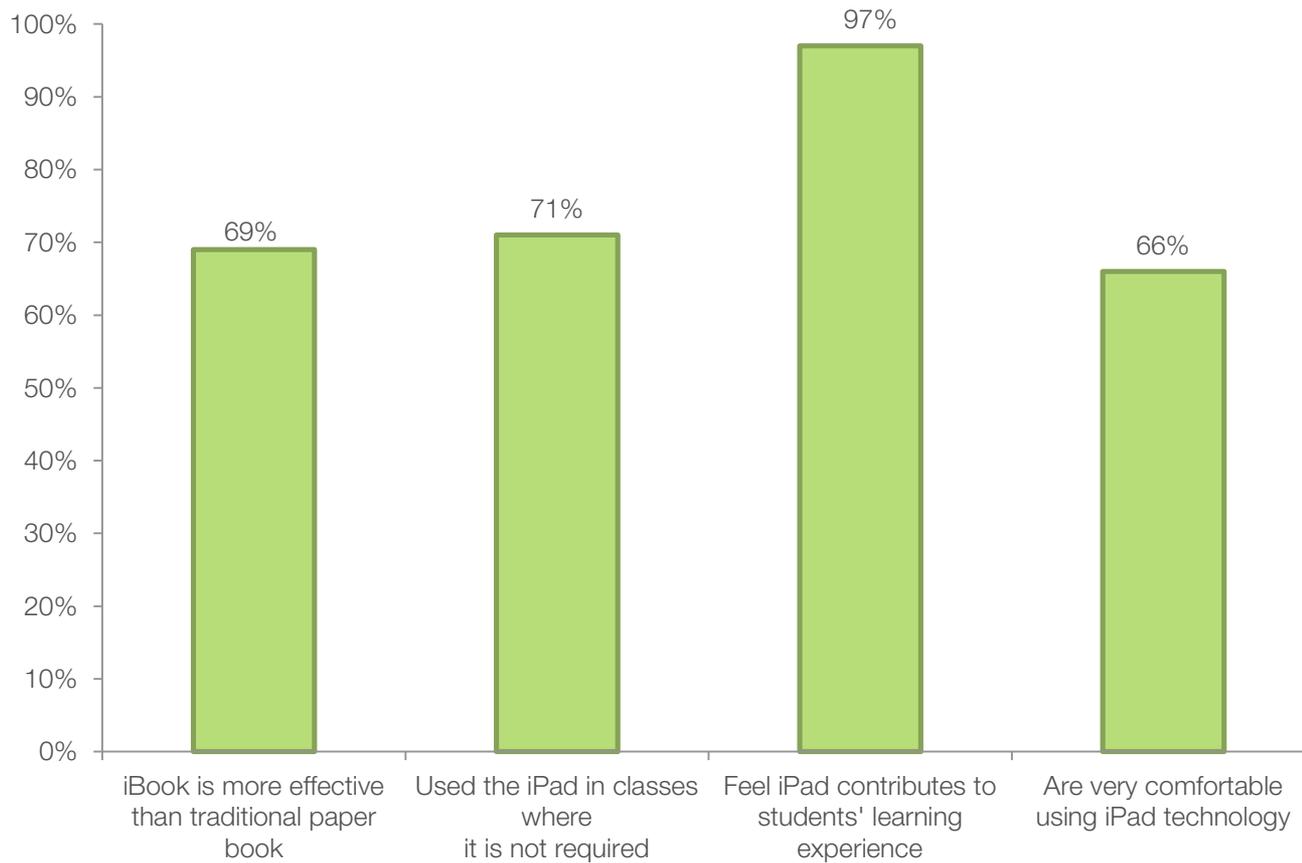

\*Lynn University surveys of students who received iPads in August 2013 and August 2014.

*“I think the iPad mini was a bold and daring choice ... and will not only revolutionize the way we learn but also the way we interact with staff and advisors here at Lynn University.”*

- Tyler Casey, junior

# What faculty are saying

## Faculty survey highlights\*

\*Lynn University survey of faculty in December 2013. Total number of respondents was 29.

*“It makes students more involved in their learning. We’re trying to foster more of a learning community where we’re all learning from each other.”*

- Mike Petroski, director for faculty development  
and academic assessment

# Cost savings

# Two-year cost savings on text books

	iBooks and paper books	iBooks and e-books	iBooks and e-rentals
