

Travel the world

Ever wonder what degree you need to become a pilot? Our professional pilot degree may be the answer. Whether you're interested in commercial or private aviation, a professional pilot degree opens doors into the aviation industry. In your core classes, you'll study business and management, while also learning the history of aviation and operations.

Our complete flight-training curriculum prepares you for a successful career as a pilot. Lynn is one of only a few aeronautics colleges offering this expert training, and it will set you apart from graduates of other aviation programs.

This major may qualify graduates for the Restricted - ATP at 1250 hours. **Flight academy rates** are flat fees for the fall and spring semesters and based on hours logged during summer terms.

Already have FAA certificates and ratings? Lynn translates those into college credit for the ratings you've already completed—saving you time and money. Earning your degree helps you accelerate your career and makes you the candidate that stands out.

Professional pilot degree information

- Commercial flight training and theory, aviation law and financial reporting
- Flight instruction and procedures, aviation technologies and weather mapping

“With our small student-to-instructor ratio, faculty and instructors provide personal instruction. We work with students to understand material and how it’s applied in the real world.”

David Cohen, dean of the College of Aeronautics
