

Designing the future

Strengthen your skills and understanding of user experience and user interface with this master's in user experience design. It's the perfect match for recent graduates and seasoned professionals who want to improve and hone creative and empathetic design skill sets.

User experience design (UXD) is an upward-trending field that leverages creativity with the understanding of how users interact with products. The ability to engage and connect with consumers using a more creative mindset is now more essential than ever. As today's businesses move toward a user-first model, it is crucial for leaders to understand and adapt to these new standards.

What you'll learn in the UX design program

As a student in this user experience program, you'll learn to use the principles of design thinking to solve problems from a user-first perspective. Along with many other topics, students in the UX design program will:

- Examine what usability is and how it's utilized to create adept user-focused interfaces.
- Utilize proper information architecture techniques and design systems to help create effective prototypes using industry-standard software.
- Build user-friendly products for traditional screen-based applications as well as more progressive platforms that may or may not be fully realized yet.

“As today's businesses move toward a user-first model, it's important to train our students on new standards.”

Cesar Santalo, College of Communication and Design, dean

About Lynn

Lynn University is one of the nation's most innovative and global universities. Located in Boca Raton, Florida, alongside booming business centers and beautiful beaches, we are focused on one thing, **preparing students for success.**

Our professors concentrate on the art of teaching – making good students great and great students remarkable.

Our award-winning iPad®-powered learning puts a transformational learning companion into the hands of students.

And our graduates? They've gained the intellectual flexibility and global experience to take the lead in an ever-changing world.

We are focused on one thing: Preparing students for success.
