

Create magic

In this visual effects program, you will expand your animation skills by learning advanced special effects techniques from our industry-expert faculty. You will also develop compositing skills, and learn how to create custom motion capture clips. Your coursework will cover design, marketing and promotion, web and multimedia, medical animation, industrial design, automotive visualization and more.

Best of all, you can earn your M.F.A. in as few as four or five semesters. Throughout, you'll use the latest technology and build an impressive portfolio to set you apart in today's competitive market.

What you'll learn in the visual effects animation program

- Advanced visual effects and compositing skills
- Custom motion capture clips
- Motion tracking and rotoscoping

About Lynn

Lynn University is one of the nation's most innovative and global universities. Located in Boca Raton, Florida, alongside booming business centers and beautiful beaches, we are focused on one thing, **preparing students for success.**

Our professors concentrate on the art of teaching – making good students great and great students remarkable.

Our award-winning iPad®-powered learning puts a transformational learning companion into the hands of students.

And our graduates? They've gained the intellectual flexibility and global experience to take the lead in an ever-changing world.

We are focused on one thing: Preparing students for success.
